# Exercise 2 – Car Info App

Date Due: 09:00AM, February 25th, 2015

Write am app that will display car information as follows:

Your application should have 3 fragments:

- A fragment to hold the buttons with car names
- A fragment to
  - display car info (Engine, horse power, type – i.e. coupe, sedan, SUV, etc., and MPG)
  - button ("View Pic") to show car image
- a fragment to show car image

Due to large file sizes in Android projects, please compress your project and name it _**Ex.02-LastNameFirstNameInitial.zip**_ - i.e. **Ex.02-ZejnilovicA.zip** and save it on your _**cloud storage drive**_ (Dropbox, google drive, sky drive, etc). Open a notepad file and paste the link to your shared folder. Save the notepad file and upload it as an attachment. _Please do not email me the link!_
